PRODUCT SPECIFICATIONS

P-230B

Round Capacity	2.75" (min.); 9" (max.)
Square Capacity	2.75" (min.); 6.25" (max.)
Blade Speed	20 - 70 RPM
Blade Feed	Servo motor and ball screw
Hydraulic Pump	5 H.P.
Blade	30" x .15" x .15"
Machine Weight	17,600 lbs
Floor Space with Table	140"W x 2280"L

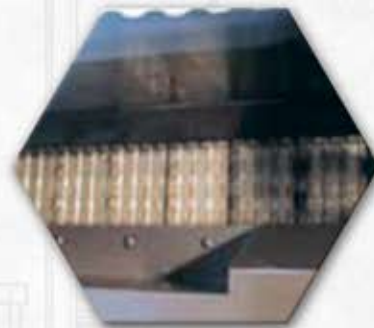

Bars are conveyed by heavy duty rollers with floating support.

Floating feed system prevents raw material from crashing with front vise.

Electro-magnetic brake applies multiple step braking torque that minimizes resonance.

Chip conveyor system capable of removing cutting chips as well as access heat from sawing area.
