

## Applicability

### Selection of blades width

The work minimum radius is determined based on the blades width.

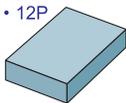

### Selection of blades pitch

Appropriate pitch is determined based on the thickness of the material to be cut.

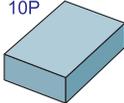

Pitch 18 • 14 • 12P

Thickness  
~12mm

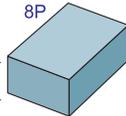

12~  
25mm

10P

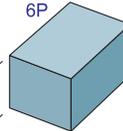

25~  
75mm

8P

75~  
150mm

6P

150~  
300mm

4P
